CARMEN SANDIEGO™

The Secret of the Stolen Drums

INSTRUCTION BOOKLET

PLEASE CAREFULLY READ THE SEPARATE HEALTH AND SAFETY PRECAUTIONS BOOKLET INCLUDED WITH THIS PRODUCT BEFORE USING YOUR NINTENDO® HARDWARE SYSTEM, GAME DISC OR ACCESSORY. THIS BOOKLET CONTAINS IMPORTANT HEALTH AND SAFETY INFORMATION.

IMPORTANT SAFETY INFORMATION: READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

- Some people (about 1 in 4000) may have seizures or blackouts triggered by light flashes or patterns, such as while watching TV or playing video games, even if they have never had a seizure before.
- Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.
- Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions	Eye or muscle twitching	Loss of awareness
Altered vision	Involuntary movements	Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

⚠ WARNING - Repetitive Motion Injuries and Eyestrain

Playing video games can make your muscles, joints, skin or eyes hurt after a few hours. Follow these instructions to avoid problems such as tendinitis, carpal tunnel syndrome, skin irritation or eyestrain:

- Avoid excessive play. It is recommended that parents monitor their children for appropriate play.
- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists, arms or eyes become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists, arms or eyes during or after play, stop playing and see a doctor.

⚠ WARNING - Electric Shock

To avoid electric shock when you use this system:

- Do not use the Nintendo GameCube during a lightning storm. There may be a risk of electric shock from lightning.
- Use only the AC adapter that comes with your system.
- Do not use the AC adapter if it has damaged, split or broken cords or wires.
- Make sure that the AC adapter cord is fully inserted into the wall outlet or extension cord.
- Always carefully disconnect all plugs by pulling on the plug and not on the cord. Make sure the Nintendo GameCube power switch is turned OFF before removing the AC adapter cord from an outlet.

⚠ CAUTION - Motion Sickness

Playing video games can cause motion sickness. If you or your child feel dizzy or nauseous when playing video games with this system, stop playing and rest. Do not drive or engage in other demanding activity until you feel better.

⚠ CAUTION - Laser Device

The Nintendo GameCube is a Class I laser product. Do not attempt to disassemble the Nintendo GameCube. Refer servicing to qualified personnel only. Caution - Use of controls or adjustments or procedures other than those specified herein may result in hazardous radiation exposure.

CONTROLLER NEUTRAL POSITION RESET

If the L or R Buttons are pressed or the Control Stick or C Stick are moved out of neutral position when the power is turned ON, those positions will be set as the neutral position, causing incorrect game control during game play.

To reset the controller, release all buttons and sticks to allow them to return to the correct neutral position, then hold down the X, Y and START/PAUSE Buttons simultaneously for 3 seconds.

The official seal is your assurance that this product is licensed or manufactured by Nintendo. Always look for this seal when buying video game systems, accessories, games and related products.

Nintendo does not license the sale or use of products without the Official Nintendo Seal.

Set up your Nintendo GameCube™ system according to the instructions in the instruction manual. Make sure the POWER Button is turned on. When the power indicator lights up, press the OPEN Button and the Disc Cover will open. Place the **Carmen Sandiego™** Game Disc on the disc tray with the label facing up. Manually close the disc cover and the game will begin to load.

NINTENDO GAMECUBE™ CONTROLLER

The following is the default Controller setup. Some buttons may be remapped in the Options Menu. Two controllers are necessary to play VS Battle and VS Team Battle Modes.

The default setting for the Rumble Feature is OFF. The Rumble Feature can be turned ON in the Options Menu.

MENU CONTROLS

Highlight menu item

⬆ ⬇ ⬇ ⬆ +Control Pad or
Control Stick

Select / Go to next screen

A Button

Cancel / Return to previous screen

B Button

COLE'S BASIC CONTROLS

- ▲ ▼ ◀ ▶ +Control Pad Run forward, backward, left or right. Remember, running makes a lot of noise...
- Control Stick To sneak silently, move the Control Stick lightly. To run, move the Control Stick all the way.
- Y Button Show HUD.
- X Button Action.
- When next to a wall, press and hold the X Button while using the Control Stick to sneak along the wall and peek around the corner.
 - When on a ledge, press the X Button to hang from the ledge.
 - Approaching a pipe or ladder from the top, press the X Button to climb on.
 - While running, press the X Button to perform a Pole Vault, the most powerful attack in Cole's arsenal! This is also necessary to jump long distances and to break through gates, wooden doors, and windows.
- B Button Staff Attack.
- A Button Jump. Press the A Button twice to Double Jump and catch maximum air.
- L Button Aim Cole's Blowgun in a first-person perspective and press the B Button to fire. Use the C Stick to zoom the camera in and out.
- R Button Press and hold to crouch. To roll silently, crouch and move in any direction.
- C Stick Move camera.

COMBAT

Cole is a master of the martial arts Bojutsu and Aikido. He remains unrivaled with his expertise of the Blowgun and Staff.

Staff

- | | |
|----------------|---|
| Staff Swing | B Button |
| 2-Hit Combo | B, B Buttons |
| 3-Hit Combo | B, B, B Buttons. This is one of Cole's strongest attacks. |
| Jump Attack | A Button, B Button |
| Overhead Smash | A Button, A Button, B Button |
| Pole Vault | Press the X Button while running to give any enemy the brunt of Cole's most powerful attack! The Pole Vault is also very useful for Jumping long distances and smashing through weak doors and gates. |

TIP: To increase the Staff's attack power, use some of the more difficult attacks like the 3-Hit Combo or Pole Vault. You may also increase the Staff's damage ability by collecting Amulets. With every 100 Amulets collected, the Staff's power increases! The trail of Cole's staff changes color whenever he gets an upgrade.

Blowgun

The Blowgun is a very useful tool! Use it to activate switches, shoot Magic Targets, distract Robots, and to shoot down Air Spirits.

Bring up the Blowgun screen by pressing the L Button. Use the C Stick to zoom the camera in and out to increase accuracy. Move the Blowgun cursor over your target. If the circle cursor appears as a transparent blue color, your shot is blocked or too far away. Move the cursor until the circle is red, then press the B Button to fire.

The Blowgun holds up to 25 Pellets. The Ammo Meter in the lower-right corner shows you how many Pellets are left.

INTERACTING WITH OBJECTS**Climb ladders or pipes**

Move toward the ladder or pipe to grab onto it. Then you can press **▲** or **▼** to climb up or slide down. When you reach the top, press the A Button to jump up. Press the X Button to let go and jump off of the ladder or pipe.

To descend, press the X Button to crawl down onto it, then press **▼** to slide down.

Hang from ledges and shimmy

When Cole is close to falling off a ledge or doesn't make a complete jump, he automatically grabs onto the ledge. If Cole is standing on top of a ledge, press the X Button to drop down and hang from the ledge.

Move left or right while hanging to shimmy. It's **very important to note** that Cole can shimmy around corners. Press the A Button to climb up and the X Button to drop down.

Sneak silently along walls and thin ledges

When next to a wall, press and hold the X Button and move left or right to sneak along the wall. Walking to the end of the wall like this will cause Cole to peek quietly around the corner!

**Walk a tightrope**

Cole can walk, Jump, Double Jump, turn around, and attack while balancing on tightropes.

**Slide down cables**

Double Jump under the cable and Cole slides down the cable automatically.

**Smash open crates and break through weak floors**

Find secret paths and hidden collectibles using the Overhead Smash maneuver. Press the following Buttons: A, A, B.

To Pole Vault through weak walls, gates, and windows, run toward them and press the X Button.

Training Orbs

Training Orbs provide useful information for trainee agents such as Cole. Stand next to a Training Orb and press the X Button to access the info. Press the B Button to exit.

Map Probes

In order to keep the Maps in your PDA up to date, ACME will send Map Probes out to your Location. Find them hovering in various places throughout each area. Just stand next to it and press the X Button to download the locations of Robots, Statues, and Puzzle Pieces, and then open your Map Screen to see where they all are.

Switches

For every blocked path, there's usually a Switch to activate a mechanism such as a bridge or gate. Activate a Switch with one strike of your Staff or a shot from afar with your Blowgun.

Force Fields

Force Fields can only be shut off one way; you must defeat all of Carmen's Robots in the area. Some of these Robots contain pieces of code, and the code can only be collected once the Robot is defeated. When you have all of the pieces of code, go to the Force Field and it will disappear.

Magic Circles and Targets

Wherever you see a Magic Circle on the ground, there will be a Magic Shield to collect somewhere nearby. Collect the Magic Shield and get back to the Magic Circle as quickly as possible, because the Circle is only active as long as the Magic Shield's power holds out! When you are standing on the active Magic Circle again, press the L Button to use the Blowgun and look around. You will see Magic Targets somewhere on the walls around you. Shoot them as quickly as you can by pressing the B Button; they will each turn blue when they have been successfully shot. You must shoot every one of the Magic Targets before the Magic Shield's power runs out.

Note: Some Magic Targets glow orange without a Magic Circle nearby. You can shoot and activate these without standing on a Magic Circle.

There are also Magic Circles that are located directly in front of Main Statues. They glow orange when Cole has destroyed all of the Statues in the level and they are not affected by Magic Shields. To activate one, stand on it, and the Main Statue will release the Compass.

Water

Water can be very troublesome. Cole's Staff sinks in the mud so he can't Pole Vault, and Double Jumping from water is out of the question. Then there's also the problem of Water Spirits, so it's a good idea to use extreme caution around water!

Birds

Be careful! Getting close to a pigeon will cause it to startle and fly, usually bringing the unwanted attention of a nearby enemy. On the other hand, you can use your Blowgun to startle a bird and distract an enemy momentarily.

It had been a while since anyone had seen or heard from the mysterious Carmen Sandiego. But the ACME agency has recently received a few tips that the world's most notorious thief is on the prowl again!

ACME has picked up her trail in New York City, where one of the last descendants from a line of African Kings recently revealed a secret that had previously only been passed down from one generation to the next in his family. On his death bed, he spoke of an ancient tale. A gathering of kings from around the world had long ago hidden an enchanted diamond, containing the knowledge of all nations in a temple deep in the jungle. When the kings assembled, each of them was given a Drum. Each Drum reveals a section of the path leading to the secret temple. If each Drum is properly placed, and then each Drum is played in the correct order, the entrance to the temple will be revealed.

Well, no one believed this old folktale...except one person. That's right, Carmen Sandiego. Ever since learning of the myth, she has been the perpetrator in a string of robberies; African relics and rare pieces of art have gone missing from art galleries and museums around the world. It seems that she is trying to pinpoint the location of the temple and recover the lost treasure before anyone else.

It's up to ACME's agents to stop her, and this time, new Agent Trainee Cole Gannon is on the case. Carmen is the best there is, so it's not going to be easy...get ready for action and adventure around the globe!

CARMEN SANDIEGO

The Secret of the Stolen Drums

Cole Gannon

17-year-old Cole Gannon has been at ACME for a year, training to be a secret agent....after school and on weekends, that is. He's a computer genius and a martial arts expert, so it goes without saying he's a little overconfident and doesn't seem to fear very much. (ACME is still working with him on this.)

One day, while combing the ACME database, he realizes that agents Jules Argent and Shadow Hawkins have been sent to Siberia to tail Carmen — but Carmen isn't in Siberia! Knowing that the agents are on the wrong track and believing that the Chief will not believe his theory, Cole decides to follow his instincts to New York City to chase Carmen on his own. As an ACME trainee, this is his first mission and he's ready to prove himself. Now's the time to catch a thief!

Jules Argent

Born in Hong Kong, 27-year-old Jules speaks several Asian languages, along with English, German and Spanish. After graduating at the top of her university class, she joined the ACME agency. Jules and Carmen were partners at the ACME agency, until Carmen turned to thievery. Jules links to Cole's PDA to provide him with useful information about his chase for Carmen Sandiego.

Shadow Hawkins

Shannon "Shadow" Hawkins grew up on a horse ranch in Montana, and always dreamed of adventure. Self-confident, a quick learner and especially enthusiastic about gadgets and technology, he's a gifted student and a champion athlete. Shadow is especially helpful in using Cole's PDA to send him useful information about the exotic locations he visits.

The Chief

The Chief is an independent, self-made professional. With a PhD in Criminology, she is highly skilled at her job, but also sensitive to the needs of her agents. The Chief always maintains her cool, even in the most perilous situations. She is Cole's mentor and boss, so don't ever take anything she says lightly!

**Carmen Sandiego**

Very little is known about the past of Carmen Isabella Sandiego, except that she traveled extensively as a child. She won a substantial amount of money on a game show at the age of ten and periodically disappeared for years at a time. She resurfaced at age 20, when she was recruited by the ACME agency and rapidly rose through the ranks. At the age of 30, she abruptly left the agency and began her life of crime. But through all of the schemes, thefts and plots, it sure seems like she wants to be tailed. Is it just for the thrill of the chase or is there a deeper motive?

Starting a New Game

You may begin a new game by selecting New Game.

Load Game

Continue a previously saved game by selecting Load Game.

Rumble

Turn the Rumble Feature ON or OFF.

Credits

Allows you to view the game's credits.

COLE'S PDA

Press START/PAUSE to pause the game and open Cole's PDA.

Options

Open the Options Menu.

Atlas

The Atlas screen gives you useful geographical information about the Location you are currently visiting.

**Map Screen**

Use the Map Screen to get an overhead view of the area. The Map reveals your current Location on the Map. In each level, there is an ACME Pod that you can find that updates your map. After your map is updated, it reveals the locations of: Robots, Statues, the Main Statue, Puzzle Pieces, and the Door to the next level.

The right side of the screen also indicates the status of your collectibles. It shows what you have collected over the total number available. In order from top to bottom:

Compasses - There are 5 in each Level.

Masks - You get these by destroying Spirit Statues. When you have them all, go to the Main Statue to receive a Compass.

Puzzle Pieces - When you collect the last one, you will see a short movie of the Puzzle Tile unlocking. Head to the Puzzle Tile to solve the Puzzle.

Amulets - For every 100 Amulets collected, your staff gets an increase in power.

GPS

As you collect Compasses, you can use the GPS system to narrow down Carmen's current whereabouts. When you collect the 5th Compass in the level, it will automatically search for Carmen.

Transport

Each Location in the world that you visit is made up of several Sub-Locations. If for any reason you need to return to a previous Sub-Location, use the Transport option to appear back at the beginning of that Sub-Location. In order to activate it, find the ACME Pod with the Map data in the level and you will be able to teleport there. This is useful if you've missed collecting a Mask or Puzzle Piece or other important items.

The Sub-Location that you are currently in is green. If the Sub-Location is orange and has a Main Statue Icon next to it, that's where the Main Statue is located. After you have all of the Masks, head there to topple the Main Statue and get its Compass.

Communications

As you progress, Shadow and Jules will periodically send you video mail with information about Carmen or your current Location. The PDA Alert appears in the upper-right corner of the screen and beeps to indicate an incoming message. These video mails are saved in this portion of your PDA, so you can view them any time. You can open this menu by opening your PDA, or you can jump straight to your Communications Screen by pressing the Z Button.

OPTIONS MENU

Save

Save your game at your current Location.

Audio Setup

Allows you to adjust the Music and Sound Effects volumes.

Rumble

Turn the Rumble Feature on your Controller ON or OFF.

Camera

Choose settings for your First Person View and your Third Person View.

Quit

End the game.

Saving a Game

You can save your game in the Options Menu at any time.

**Multiple Saved Games**

You get three save slots to save your games. Make sure you use them wisely. The flag representing the country that you are in will appear in the window of your save slot.

Loading a Saved Game

If a previously saved Carmen Sandiego file is present when the game begins, that game becomes available when you select Load Game from the Main Menu.

The following information is shown on the game screen when you press the Y Button.

**Noise Meter**

Stealth is of the utmost importance on this mission. You'll find that being an agent requires you to sneak and be stealthy as often as possible. If you try to run up behind a Robot or Jump down behind them, you're going to spend an awful lot of time fighting. Luckily, your Noise Meter tells you if there's a Robot nearby and whether it is aware of you or not.

The indicator at the front of the meter is the Robot's Enemy Alert. If the Robot has seen or heard you and realizes you are there, its Enemy Alert flashes red just like the Robot's eye as it searches for you. Hide until the Enemy Alert transitions from red to yellow to green. Once the Enemy Alert is no longer red, it is safe to sneak up behind the Robot and attack.

Health Meter

Your Health Meter is represented by Yin-Yang symbols. You are at full health when you have three Yin-Yang symbols in your Health Meter. With each Boss that you defeat, you are awarded an extra Yin-Yang symbol.

**Magic Shield Timer**

Once you've collected a Magic Shield, the Magic Shield Timer counts down the number of seconds you have until its power runs out.

PDA Alert

If Jules or Shadow has sent you a video mail, the PDA Alert flashes in the upper-right corner of the screen and beeps. Press the Z Button to Jump straight to the Communications Screen.

**Compasses**

This is the number of Compasses you have collected. **There are five Compasses in every Location.**

Puzzle Pieces

This is the number of Puzzle Pieces you have collected in the current Location.

**Amulets**

This is the number of Amulets you have collected. Collect 100 Amulets to increase the power of your Staff attack!

Magic Masks

This is the number of Masks you have collected by destroying the Spirit Statues. Collect them all and find the Main Statue to get the Compass.

Cole's mission to catch Carmen Sandiego will take him around the globe to nine Locations. Each Location contains multiple Sub-Locations. For example, while scouring the Location of New York City, you may visit Sub-Locations such as Back Alley, Museum Office, Exhibition Hall, Docks, and so forth. Each of the following objectives must be completed in order to move on to the next Location.

PUZZLES

Each Location contains one 2-D Puzzle or mini-game. In order to activate the Puzzle, you must find and collect all of the Puzzle Pieces in that Location. (You can check the total number of Puzzle Pieces required and collected on the Map Screen.) Once you've collected all of the pieces in a Location, bring them to a Puzzle Activation Point. Each Puzzle is unique, and the instructions will be given at the Activation Point.

SPIRIT STATUES

The Spirits want to protect the Drums and will do so at any cost. The Spirit Statue's job is to create as many Spirits as it can to attack you and keep you distracted. You must destroy each Spirit Statue to stop the never-ending flow of Spirits and, ultimately, to take its Mask.

MASKS

You get one Mask for every Spirit Statue that you destroy. Every Location has a required number of Masks that you must collect. You can check this total on the Map Screen. Once you've collected all of the Location's Masks, you must find the Main Statue.

MAIN STATUES

To destroy the Main Statue, you must have destroyed all of the Spirit Statues in the Location and collected their Masks. If you are having trouble finding it, use your Transport Feature to see where it is located. It will be marked orange and will have an icon next to it. When you find it, stand on the Magic Circle in front of the Main Statue to destroy it and get the Compass.

COMPASSES

Compasses are what will ultimately lead you to the master thief herself. You can find them hidden in the Sub-Locations, inside Main Statues, and as rewards for solving Puzzles. When you get all 5, you can use your GPS to track down Carmen.

COLLECTIBLE ITEMS

Collectibles can be found inside crates as well as out in the open, so look around carefully!

Amulets

Collect 100 Amulets to increase the Staff's attack power.

Compasses

These are clues that Carmen leaves behind to keep the chase going. You must find all of the Compasses in each Location to advance to the next Location.

Health

Your Health Meter is represented by Yin-Yang symbols. You are at full health when you have three Yin-Yang symbols in your Health Meter.

Magic Shields

Magic Shields give the power of invulnerability for a very short time. You can run straight through the most powerful spirits and they will immediately disintegrate. Magic Shields also give power to Magic Circles and their Targets. Each Magic Shield lasts for a different amount of time, so keep an eye on your Magic Shield Timer.

Masks

Destroy Spirit Statues to collect Masks. You'll need all the Masks in a Location to destroy the Main Statue and get the Compass.

Pellet Cartridges

Gives you 5 pellets to use with your blowgun.

Puzzle Pieces

Collect every Puzzle Piece in order to unlock and complete the Puzzle in each Location. Puzzle Pieces can be found in any of the Sub-Locations ON or BEFORE a Puzzle Tile.

CARMEN'S ROBOTS

Carmen isn't going to let you find her so easily. She's left behind Robot Sentries at every turn. Their only job is to attack anyone who comes sniffing along Carmen's trail, and that means you! There's only one way to destroy them; you must strike them in the back with your Staff. (Don't bother with the Blowgun, it won't work.) If the Robot realizes you are there (by seeing or hearing you) and you cannot strike it in the back in time, it will turn toward you to attack, blocking your every strike with a force field. The strategy when dealing with a Robot is to be stealthy — sneak up on a Robot by creeping or rolling up behind it, and then swing your Staff at its back. If it detects your attack, get to a safe place and hide as quickly as possible! Hide until the Enemy Alert Meter transitions from red to yellow to green. Once the Enemy Alert is no longer red, it is safe to sneak up behind the Robot and attack.

Some of these Robots contain pieces of code, and the code can only be collected once the Robot has been defeated. When you have all of the pieces of code, approach the nearest Force Field to make it disappear and enter the next section of the game.

SECURITY DEVICES**Security Cameras**

Try to shoot these before they see you. Otherwise, they'll automatically reveal your presence and set off an alarm!

**Laser Security Devices**

Exercise extreme caution when you see these. Like the surveillance camera, they will automatically reveal your presence if you trip the sensors. Don't touch the beams!

Security Floor Panels

If it's glowing red, don't step on it or the alarm will sound.

ELEMENTAL SPIRITS

The Elemental Spirits are creatures that were sent to protect the Drums from man's desire for power. Once defeated, they dissipate into a harmless cloud of butterflies.

Spirit Statues

The Spirits want to protect the Drums and will do so at any cost. The Spirit Statue's job is to create as many Spirits as it can to attack you and keep you distracted. You must destroy each Spirit Statue to stop the never-ending flow of Spirits and, ultimately, to take its Mask.

**Air Spirits**

The Air Spirits are flying creatures that attack from above. Your best defense is a good Blowgun offense!

Earth Spirits

These spirits roam the Earth and underground. They are known to create earthquakes and have tremendous power over the mineral world. Watch out for rolling boulders or rocks targeted at your head. Use your Staff to bat the rocks right back at them.

**Water Spirits**

The Water Spirits have control over the liquid elements. They emerge from mud puddles or any other water sources.

Fire Spirits

The Fire Spirits are creatures associated with combustion, whether it is flames or molten lava. They are the most powerful of all the elemental spirits in the game and can only be damaged by one thing — their own fireballs. Use your Staff to knock their fireballs right back at them.

ACME Gadgets are Very Helpful

If you are lost, press START/PAUSE and check out your Map. It shows all of the necessary information that you need for the level. If you find the hidden ACME Map Probe, in each level, your map will show you everything that you need to collect.

Why Walk when you can Teleport?

If you realize you forgot to get a Puzzle Piece, or a Mask, use your Transport Feature to go back to any of the previous areas that you have been. It's much faster than walking.

Scouting Ahead

Use the L Button to view the area in first-person perspective, then use the C Stick to zoom in and out and get a better view.

Silence is Golden

Sneaking, crouching and rolling are all great ways to get the drop on any foe. Did you know you can jump down from any height silently and sneak up on an enemy? Just hold the R Button and roll off of the ledge. It allows you to land silently.

Distraction

Is there a Robot that you just can't seem to sneak up on? Use your Blowgun to shoot a spot close to the Robot and distract it momentarily. You can also use the Blowgun to startle a bird and draw the Robot's attention away from you.

Hang Around and See What's Up

If there's an enemy on the ground below you and you want to get a better view, lower yourself down, hang from a ledge and shimmy closer — it's totally silent so it won't alert the enemy. Cole can even shimmy around corners, so you may be able to avoid the enemy altogether.

Double Jump High

Pressing the the A Button twice quickly, will allow Cole to jump higher.

Double Jump Far

While running, pressing the Jump Button, then pausing briefly, then pressing it again, will cause Cole to jump farther.

Double Jump Dodge

Your High Double Jump will allow you to jump over and dodge enemy's horizontal attacks. It also allows you to jump over charging enemies.

Double Jump Counter-Attack

If you perform the Double Jump Dodge, and attack while you are in mid-air, you'll hit the enemies for extra damage.

4-Hit Combo

If you want to finish the enemies off in style, perform your 3-Hit Combo, then immediately Pole Vault into the enemies for extra damage.

Friendly Fire

When a foe comes out swinging, enemies in its vicinity aren't safe. Use this to your advantage! Lead enemies toward each other, because any shots fired or punches thrown at each other means less work for you.

Smash and Bash

Look for doors with Yield Signs, cracked floors and anything you might be able to bust through. There are secret paths and hidden collectibles just waiting to be found using the Overhead Smash or Pole Vault.

Hollywood Ending

When you finish the game, it isn't necessarily over. Save your game and start again for a special surprise!

kids everywhere.

LIMITED WARRANTY

BAM! Entertainment, Inc. warrants to the original purchaser of this product that the recording medium on which the software program(s) are recorded (the "Recording Medium") and the documentation that is included with this product (the "Manual") are free from defects in materials and workmanship for a period of 90 days from the date of purchase. If the Recording Medium or the Manual is found to be defective within 90 days from the date of purchase, BAM! Entertainment agrees to replace the Recording Medium or Manual free of charge upon receipt of the Recording Medium or Manual at its facilities, postage paid, with proof of purchase. This warranty is limited to the Recording Medium containing the software program and the Manual that were originally provided by BAM! Entertainment.

This warranty shall not apply if the product has been damaged by negligence, accident, unreasonable use, modification, tampering, or by other causes unrelated to the defective materials or workmanship. If the product was damaged by any of the above factors this 90-day warranty is rendered void.

Returns within the 90-Day Warranty Period

Please return the product along with (1) a copy of the original sales receipt, showing the date of purchase, (2) a brief description of the difficulty you are experiencing and (3) your name, address and phone number to the address below and BAM! Entertainment will mail a replacement Recording Medium and/or Manual to you.
